SUMMARY

Curious FrontEnd Developer interested in writing new codes, skilled at developing complex solutions, possessing strong creative thinking skills, high energy and integrity. Have the ability to create algorithms effectively, _interact positively and communicate appropriately with team members._ Quick to grasp new technologies and concepts to develop innovative and creative solutions to problems. Always **eager to learn** various technologies, tools and libraries. **Especially interested in Mobile/Front end/Web Development, Typescript, ReactJs, NextJS and JavaScript.** I am excited to learn new things and improve myself. You can review my projects on my GitHub account on listed up.
